Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 26 September 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Amendment

The amendment file 26 September 2006 has been entered into this application.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 38 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

The claim is directed to a judicial exception for it is an abstract idea as such, pursuant to the Interim Guidelines on Patent Eligible Subject Matter (MPEP 2106), the claims must have either physical transformation and/or a useful, concrete and tangible result. The claims fail to include transformation from one physical state to another. Although, the claims appear useful and concrete, there does not appear to be a tangible result claimed. Merely determining the position where the collimated light beam strikes the encoded surface, which corresponds to where the device is pointing, as a function of a characteristic of said detected scattered light would not appear to be sufficient to constitute a tangible result, since the outcome of the determining step has not been used in a disclosed practical application nor made available in such a manner that its usefulness in a disclosed practical application can be realized. As such, the subject matter of the claims is not patent eligible.

Additional Prior Art

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references listed in the attached form PTO-892 teach of other prior art pointing system/ method for determining a position where a collimated light beam of a pointing device strikes an encoded surface.

Art Unit: 2877

Response to Arguments

Applicant's arguments/remarks, see pages 3-14, filed 26 September 2006, with respect to the rejection(s) of claim(s) 1-37 under 35 U.S.C. 35 U.S.C. 103(a) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made to claim 38.

Examiner apologizes for the inconvenience, but upon further consideration, a new ground(s) of rejection under 35 U.S.C. 101 has been made to claim 38.

Allowable Subject Matter

Claims 1-37 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

As to claims 1 and 25, the examiner agrees with the applicant arguments that the prior art of record, taken alone or in combination, fails to disclose or render obvious "remote" as defined within the applicant's specification (par. 0032), in combination with the rest of the limitations of the claim. Claims 2-24 and 26-37 are allowable by virtue of their dependency.

Claim 38 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 101, set forth in this Office action.

As to claim 38, the examiner agrees with the applicant arguments that the prior art of record, taken alone or in combination, fails to disclose or render obvious "remote" as defined within the applicant's specification (par. 0032), in combination with the rest of the limitations of the claim. Claims 39-40 are allowable by virtue of their dependency.

Conclusion
